

DID MAN EVOLVE  
OR  
WAS HE CREATED BY GOD?

Dr. William R. Glaze  
Bethany Baptist Church

## VIEWS REGARDING ORIGINS

There are four views regarding origins:

- Evolution—man evolved out of slime
- Intelligent Design—there is an intelligent designer who created man.
- Theistic Evolution—God used evolution to develop mankind.
- Creation—God created mankind.

## DARWIN'S THEORY OF EVOLUTION (Survival of the Fittest)

Overpopulation

Competition

Genetic Variation

Adaptation

Natural Selection

## EVOLUTION IS NOT COMPATIBLE WITH THE BIBLE

- Evolution believes life came from non-life, the Bible says life came from God, the giver of life (Gen. 1-2).
- Evolution believes all things are progressing, the Bible says all things are complete (Gen. 1-2).
- Evolution believes man came out of slime, the Bible says man came out of the dust of the ground (Gen. 2:7).
- Evolution believes that man evolved from lower life forms, the Bible says man was made in the image of God (Gen. 1:26-27).
- Evolution believes man and animals transitioned from one species to another, the Bible says God created each after its kind (Gen. 1:6-25).

## HUMAN BEINGS DID NOT EVOLVE

God Created all Things After its Kind (Gen. 1:20-25).

Man Is Made in the Image of God (Gen. 1:26-27)

Man is Fearfully and Wonderfully Made (Ps. 139:14)

Animals and Man Are Different (1 Cor. 15:39).

### QUESTIONS

1. How can you get life from non-life?
2. How can random chance account for multi-complex living systems found in the human body?
3. Why has there been no discoveries of transitional species (missing links)?
4. Why have Ape-man discoveries turned out to be frauds?
5. Why can we observe evolution within a species (different kinds of cats) but not evolution from one species to another (a cat becoming a dog).
