THE FRAMEWORK BEHIND EVOLUTIONIST INTERPRETATION—RANDOM CHANCE

“The framework behind the evolutionist interpretation is naturalism—it is assumed that things made themselves, that no divine intervention happened...nothing gave rise to something at an alleged ‘big bang’; non-living matter gave rise to life; single-celled organism gave rise to many-celled organisms; invertebrates gave rise to vertebrates, ape-like creatures gave rise to man...”

Jonathan Sarfati, *Refuting Evolution*, p. 16

EVOLUTION FAILS TO ADDRESS LIFE’S MOST IMPORTANT QUESTIONS

- Where we came from (Gen. 2:7, 18-22)?
- Why we are here (Rev. 4:11)?
- Where we are going (Lk. 16:19-31)?

THERE IS NO ULTIMATE PURPOSE FOR LIFE BEHIND EVOLUTION

Evolution says that things created themselves, non-life gave rise to life but the Bible says God is the Creator and Life-Giver of all things (Gen. 1:1-31). Evolution says there was never any ultimate plan, purpose or goal for life, the Bible says God has specific plans, purposes and goals for people (Jer. 29:11). Evolution says man determines his own truth, the Bible says God determines truth (Ps. 117:2). Evolution says man determines his own destiny, the Bible says God determines the destiny of man (Ps. 75:6-7).

EVOLUTIONARY THINKING HAS LEFT MANKIND TO DEVISE HIS OWN PHILOSOPHIES FOR LIFE

- Hedonism
- Moral Relativism
- Nihilism
- Humanism
- Fatalism
- Philanthropism

IMPLICATIONS OF A DIVINE CREATOR

We were created and designed by an Almighty God (Ps. 8:4-6).

He has a purpose and meaning for our lives (Jer. 29:11).

He has given us His set of instructions to live by (2 Tim. 3:16-17).

He will hold us accountable for our life here on earth (2 Cor. 5:10; Rev. 20:11-15).

QUESTIONS

1. How can there be any ultimate meaning to life if we are here by chance?
2. What will happen to me when I leave this life?
3. If we are here by chance, who determines what is right or wrong?
